Program

The individual competition will follow an All Final Qualifying System. Seeding in the first round is done by the best time for that distance in the past and current seasons. According to the number of entries, there will be a competition over a minimum of two distances for junior E and F (Saturday and Sunday), **and by 150 entries** or more three distances for junior D and older. When the entries is lower than 150 the competition will be held only Saturday and Sunday with a minimum of two distances. The total number of points from all distance finals will determine the competition's overall winner in each category.

Relay races will be held with club mixed gender teams in 3 categories A/B/S/M (3000m), C/D (2000m) and E/F (2000m). Depending on the number of club teams, extra mixed club teams may be allowed as well, if time permits it. The races of the Relay teams shall happen as if they were finals by assigning a virtual rank based on the sum of the best 500m times of the skaters of each team.

Hence the last Relay race of each category shall consist of the (virtually) fastest teams. However, the distance classification of the Relay shall follow the finish times of each team. In such a way, we can provide challenging and safe Relays.
