

Personal Record Award for Juniors C/D/E/F

In 2016 the website Shorttrackonline.info started with handing out a special award for skaters who realized a Personal Record during the Open Dutch Championships. Starting with the season 2019-2020 the website Shorttrackonline.info will extend this initiative. From now on shorttrack skaters from all over the World will get a special award for improving a Personal Record.

The Personal Record Award will be handed out for the following categories and distances:

Juniors C/D based on the 500 meter

Juniors E/F based on the 333 meter

It only counts for improved Personal Records (not for the very first Personal Record), skated in official competitions which are in the database of Shorttrackonline.info, with a maximum for this season of 500 awards.

Only one improvement per competition will be taken into consideration. Records will be detected automatically by the website Shorttrackonline.info. Skaters do not have to apply for this.

Awards will be handed out to the countries Contact Person of Shorttrackonline.info who will hand them out at a competition where the awarded skater is competing.

This Personal Record Award is a LEGO KIT of a shorttrack skater. Build your own Ice rink with a lot of skaters by skating a lot of Personal Records!
