Super Prestige World Ranking Classification

The website Shorttrackonline.info is doing a special initiative in statistics. We are making and publishing the Shorttrackonline Super Prestige World Ranking Classification.

This SOL Super Prestige World Ranking Classification is made to determine who is the best overall shorttrack skater over the whole season based on the World Cups and World Championships.

The special point scoring system is based on the actual scoring of points during the Worldcups and World Championships.

You can find the SOL Super Prestige World Ranking Classification on the website Shorttrackonline.info with the top-5 skaters on the frontpage and with the whole classification on the page RANKINGS. If you click on a name you will see a special page with all the points scored by that skater over several years.

We have published the SOL Super Prestige World Ranking unofficially already over several seasons. In the season 2017-2018 the overall winners of the SOL Super Prestige World Ranking Classification were Minjaeong Choi (KOR) and Charles Hamelin (CAN). In the season 2018-2019 the winners were Suzanne Schulting (NED) and Hyo Jun Lim (CHN). It is the intention to hand out a special award to the winners of the upcoming season.

With this SOL Super Prestige World Ranking Classification we do hope to give an extra dimension to shorttrack speedskating and to give a helpful tool to all federations in the world for promoting our sport.
